

# THE AMISH OUTLAWS

Three out of the six members of The Amish Outlaws were born and raised with a strict Amish upbringing. No electricity from land lines, no alcohol, no musical instruments, but their spirits were too wild for the Amish lifestyle. Once they trampled in the "Devil's Playground," there was no turning back. In the years since leaving on Rumspringa, the members of The Amish Outlaws have become very well acclimated to the pleasures and vices of the modern world... music, most of all.

There is no "typical" Amish Outlaws show, but one can expect to see six men in full Amish garb releasing all of their pent up energy with an infectious joy. With a set that is always evolving as the Brothers discover more and more music and culture, The Amish Outlaws constantly surprise the audience and keep them guessing as to what they could possibly play next. Amish Outlaw gigs are less performances than they are initiations into the life of an Amish Outlaw, and parties celebrating the Brothers' embracing of the English world.
